Study Abroad in Belize

June 18 – June 27, 2011

Experience the natural wonders of Belize, Nature’s Best Kept Secret. A wildlife sanctuary, the largest and most pristine barrier reef in the northern hemisphere, and ancient Mayan sites will serve as our classrooms as we study the interaction between organisms and their environment, reef building, island geologic structure, environmental conservation and history.

PROGRAM FEES

$2,500 (includes airfare, lodging and meals), plus course tuition
